

4-20-17

To the Honorable Judge Christopher Alston,

My name is Alex McQuin. I had a proof of claim filed on my behalf by the trustee (Mark Calvert) pursuant to Fed.R.Bankr.P.3004. on August 29, 2016. Case number 16-bk-1167-CMA of NWTM bankruptcy, the court Docket 653. I pulled my proof of claim on August 30, 2016 Docket 655. I am very interested in being the sole beneficiary of my claim. My last claim was 6675.1 OZ of .999 silver. I would like to make sure that Mr. Mark Calvert did not alter my claim in anyway. I am interested in my claim with the company. And if different from 6675.1 of .999 silver, I want to withdraw my claim. Also I want a off-set for interest on the undelivered silver/product/money of 11% compounded daily that is what the hospital just charged me. Also Unsecured priority claim, and nondischargable. I have been to the court, (Western District of Washington) three times trying to resolve this issue, and have been unsuccessful of receiving help in the matter.

I will be attaching proof of payment to N.W.T.M. There will be a copy of the check for \$16,160.00 I turn in with docket 934 on March 8, 2017. I would like all the paper work I am sending you today to be added to the claim if my claim is under seal?(If I'm not able to see my claim or withdraw my claim.)

MARK L. HATCHER, CLERK
OF THE BANKRUPTCY COURT

Here is a riddle I found in BLACK LAW DICTIONARY:
Jones Act- Plaintiff must be a seaman, who is injured (or killed) in the course of employment. The course of employment requirement at least excluded passenger's, guests, trespasser's, pirates (unless of course the pirate was suing his own employer.) and so on who else might be excluded are included. Here is my take on this riddle, the seaman (see's whats going on) he has a heart (feelings) and reports a wrong doing and was injured or killed by the officer or crew. Today that is what we call a whistle blower. Which is hard to do when no one wants to hear the whistle. I have my own rules that I follow and have been breaking because of this case. I have been to the FBI, your court, The news paper and to attorney's. They seem like good people but they just could not hear the whistle. I can see where it would be hard for them. The trustee on the other hand, I have no trust for. I see a lot of bad in him. I would like to, and plan to make an example out of him. Not prison, there is no sense for the tax payers to pay for his room and board for twenty years. Take away the love of his life, his money/assets I would say 200k against Mark and 200k against Cascade Capital Group, I would be ok with that. I wasted a lot of time on this case. It's been a hard year. He should pay back the other people that payed for a product they did not receive. He should not have sold all that inventory. Cash is not king when the U.S CONSTITUTION anything but gold and silver coins a tender in payment of debts. I can show corruption and fraud, that is the easy part. The hard part is to find someone who can and will do the right thing. It is hard for me to break my own rule being a tattle tale. It sucks when the corruption gets into the law/ courts, who do you turn to? I dont like asking for help worst yet I ask my kids and they say we can't we can't. We need help. I know my kids can do anything they set their minds to. So I told them ok I will do it myself and when I'm done, I will send

you and email that says, I fought the law and I won. Now you know you can do what ever you set your mind to.

I can see made up people, "computers" in this case taking my money. Sale's people, CEO's, Bookkeepers, employee's implemented ADP plan and other various plans = computer's (robot) it's one thing for them to steal your job, it's another to steal your life saving's. It will likely keep getting worse. My dad told me that the civil war did not free the slaves, it was the cotton gin. In this day and age there is a lot of cotton gin's. It will only get worse. American pride has turned to American corruption, it's like a disease. The thing that really cuts deep and hurts is all the games that are being played with the wording. I'm not talking about the corrupt stuff like us accolades from Providence, Rhode Island being sold with Tomball Texas. That's "hiding" assets which was sold to Tom Tucker and Larry Cook insider's as docket 200 first page fine print note 1, they are the same as IRA green holdings.

It's when I can't see what is gained like docket 101. The trustee sending billing statements to himself. Or the creditors from the 90 day pre bankruptcy. One of the creditors Future Case Corp. 27 Mill St. They are making fun of our intellect. And entity's are watching and laughing. This is what cuts the deepest. I held on to a part of my self being that most can only remember like a dream of long ago . If they can remember at all. I do walk away from a lot of fights. But not this one, if ever there was a time to fight it's now. They are cutting down to the Essence of humanity. I can see we need the bad with the good. Heaven and Hell both sound boring to me. So if we live where heaven and Hell meet, life can be what ever you make of it. Can not appreciate the sweet without the sour. What doesn't kill you makes you stronger. We need to taste both. I have only been tasting the sour I'm ready for the sweet taste of justice, and at least the illusion of freedom.

Us humans have the freedom of speech with the illusion of freedom and justice. I called the trustee God in this case, so you have more authority then God, you can tell him stop or go. You determine my reality, my being, my out look on what we call life. I am being wronged in the worst way you can imagine. I could use your help and some justice.

Malfeasance is the closest word I could find to describe what is going on. Stealing is one thing, laughing while you do it is worse. And being untouchable = malfeasance. I am man, no more no less with a range between everything to nothing. I am 48 years old, sound mind and body. I learned only three things of the life that we live: I fight with the rocks, the river's sing to me, and the more you eat the more you poop. With all due respect.
